

Shore Solutions provides equipment, services, procurement support, logistics, and supply chain solutions to federal, state and local entities nationwide.

What Makes Us Different

You don't have to worry about your requirements/restrictions not being understood!

We have over 40 years of military/contracting experience. With our utilization of cutting-edge technology, historical data, customer feedback, extensive training, and hiring veterans, there is nothing we won't do to support our customers and ensure we fully understand every unique requirement that comes our way. Most importantly, we do so with integrity and pride.

You get the bad-ass service and support you deserve! On top of having a team comprised of Veterans and true patriots dedicated to supporting you, our technological capabilities allow us to provide tailored customer-specific capabilities. These capabilities include automated order processing, real-time shipment notifications, custom invoicing, and reports supporting each customer's specific documentation, compliance, and audit requirements, all within a secure and personalized user interface. We truly care about your success.

You can have 100% confidence in our solutions and our pricing! We believe that being 100% transparent and thorough not only builds trust but strengthens relationships. Therefore, we always conduct extensive market research, utilize third-party market analysis for objective feedback, provide multiple solutions that meet your requirements, and provide our assessments when requested. We do this to support our Heroes and our families.

You can have your cake and eat it too! In addition to bad-ass service, multiple solution options, and complete transparency, a single contract award with Shore Solutions provides your agency credit toward all four set-aside goals, which are: Small Disadvantaged Business/8(a), HUBZone, WOSB/EDWOSB, and SDVOSB. You should do business with us because we are the best team for the job; the set-asides are just a bonus.
